

Safe Washing - A Quick Guide

This is a quick guide to safe washing your vehicle with a few tips thrown in for good measure! Hopefully it'll help keep your paintwork free of swirls.

The Importance of Pre Washing

The less contact the wash-mitt has with the surface of the paint, the better! Remove as much loose contamination as possible by power washing the vehicle.
To remove heavy contamination, apply CLEANLINESS citrus pre-wash and allow it to dwell, this will loosen any stubborn debris.

Simply rinse before repeating the process using the FASTFOAM. The snow-foam and the pre wash can be dispensed through the BLIZZARD foam cannon.

Hand Washing & The Two Bucket Method

Use two detailing buckets, each with a GRITGUARD™. Use one bucket for fresh, clean water and the other containing water and a measure of your favourite Angelwax shampoo!

The Safe Wash Process

Submerge and thoroughly soak the wash-mitt in the bucket containing the shampoo solution and commence washing from the top of the vehicle working downwards. This method will ensure that the cleanest areas are being washed first thus keeping the water cleaner, for longer. After each area has been cleaned, submerge the wash-mitt into the clean, fresh water and agitate it to remove any contamination, trapping it in the GRITGUARD. After rinsing the wash-mitt in the fresh water, soak it in the shampoo bucket and continue to wash the vehicle. Repeat this process until the entire vehicle has been washed.

Rinsing & Drying

Once the vehicle has been thoroughly rinsed, apply a drying aid to minimise the use of the drying towel.
BLUE RINSE can be applied using the BLIZZARD dispenser and will remove excess water from the vehicle. Gently rinse with a hose and allow the product to flow across all of the surfaces for the maximum drying effect while adding a wax finish to the paintwork. For the ultimate in ceramic protection, apply a layer of DREAMCOAT, spray on, rinse-off SiO2 coating. Using a drying towel, gently dab away any excess water droplets remaining on the vehicle.

Angelwax

HEAVEN SCENT WICKED FINISH

WASHING

WASH BUCKET WITH GRITGUARD™

WASH SAFER!

To ensure the safest wash possible, the Angelwax wash bucket comes with its own genuine GRITGUARD™.
The GRITGUARD™ sits in the bottom of the bucket and traps dirt and ensures that no grit particles find their way back onto the wash mitt and on to the paint surface during the wash process.

SUB-MITT

MICROFIBRE WASH MITT

Manufactured using fully synthetic materials, this wash mitt is extremely deep, soft and safe to use. This extremely durable wash-mitt is a high quality item which we know you'll love using as much as we do!

REVENGE

BUG & INSECT REMOVER

This powerful bug and insect remover is so easy to use, simply spray the affected area, allow it to dwell for a few minutes and loosen the contaminants before rinsing with a power-washer.

BLIZZARD

PROFESSIONAL FOAM LANCE SYSTEM

Blizzard is a foam lance product delivery system designed to dispense your chosen Angelwax wash product. When used as directed and as part of your 3 step wash system, the intense foam created by the Angelwax Blizzard encapsulates, softens and then removes dirt and contamination quickly and safely using gravity and the weight of the dense foam to drag it to the ground. Angelwax Blizzard compatible products: Cleanliness, Fastfoam, Blue Rinse. The Angelwax BLIZZARD is supplied with a Karcher K Series adaptor.

CLEANLINESS

CONCENTRATED ORANGE PRE-WASH

Angelwax Cleanliness has been formulated to remove bugs, road grime, bird lime and contamination from the bodywork of your vehicle. Designed by our chemists to be a water based cleaner intended for deployment through a foaming lance on a pressure washer, Cleanliness is safe to use on all vehicle surfaces. Angelwax Cleanliness is high-foaming, solvent-free and completely wax & sealant safe.

FASTFOAM

PROFESSIONAL DETAILING SNOWFOAM

This super concentrated formulation has been designed to create a blanket of sticky foam which covers the vehicle and clings to every part of it's surface before quickly getting to work removing dirt, traffic film and other harmful deposits safely from your vehicle.

Fastfoam has been specifically designed to give outstanding results when used through a foaming lance or the chemical bottle of a pressure washer.

SUPERIOR SHAMPOO

PURE AUTOMOTIVE SHAMPOO

Angelwax Superior Shampoo is an automotive shampoo in its purest form! Thick, slow-pouring and highly concentrated this shampoo has been designed to leave your vehicle beautifully cleansed and streak-free. Just a small amount of Angelwax Superior Shampoo is required to produce a rich lather making this super concentrated product the ultimate detailing shampoo.

LUMINOSITY MATTE SHAMPOO

SHAMPOO FOR MATTE FINISHES

The perfect pH neutral shampoo designed specifically for the cleansing of matte paintwork and matte wrapped vehicles. Matte vehicle finishes require specialist detailing chemicals that are free from waxes & silicones but must also have the power to clean the bodywork thoroughly without damaging the matte surface. Our unique formulation is gentle on matte surfaces yet highly concentrated and has excellent cleaning and lubricating properties to ensure a gloss-free finish.
Angelwax LUMINOSITY Matte Shampoo is completely wax & coating safe!

ATOMIC SHAMPOO

GRAPHENE INFUSED SHAMPOO

A state-of-the-art graphene shampoo that has been formulated to prevent marring and scratches whilst washing your vehicle. The lubricity created when adding graphene to this shampoo formulation allows the wash mitt to glide effortlessly across the surface of the vehicle thus, preventing any damage to the surface of the paint.
ATOMIC SHAMPOO has been formulated for the protection of the Angelwax NEBULA graphene ceramic coating.

ENIGMA SHAMPOO

CERAMIC INFUSED SHAMPOO

When used regularly, the ceramic molecules within Enigma Shampoo will bond to the vehicle and a protective coating is formed over its surface. With excellent cleansing ability, our unique formulation adds an extra layer of ceramic protection on top of existing wax or ceramic coatings. This additional layer will further enhance the appearance of your vehicle, protecting any existing coating and boosting its hydrophobic effects. Angelwax ENIGMA Shampoo forms part of our unique Enigma range of ceramic detailing products, designed specifically to rejuvenate surfaces protected with Enigma ceramic detailing wax and other ceramic coatings.

BLUE-RINSE

WAX-INFUSED FINALE

Designed to be a post wash rinse and the final step of your vehicle wash cycle.
We have formulated this water-based spray on, rinse off wax to aid with the rinsing, drying and the gloss finish of your vehicle.
Once BLUE RINSE has made contact with its surface a hydrophobic coating ensures water cannot remain on the vehicle once it has been rinsed making the surface perfectly prepared for the next stage of your detailing process.

DREAMCOAT

SiO_2 SPRAY-ON RINSE-OFF COATING

Dreamcoat is a beautifully simple spray on, rinse off SiO_2 coating that can be applied in minutes and provides instant gloss combined with a highly durable protective layer on the surface of your vehicle. Our unique, easy to use formulation creates extreme levels of hydrophobicity and offers chemical resistance to the vehicle's bodywork including metal, glass, plastic, rubber and vinyl.
The self-cleaning nature of the product helps to prevent contamination adhering itself to the treated surface thus ensuring the vehicle stays cleaner for longer with durability exceeding 3 months.

DRY-RIDE

PROFESSIONAL DRYING TOWEL

The DRY-RIDE drying towel is the perfect way to finish your wash process.
This ultra absorbent towel measures in at 60cm x 60cm and is made with a super soft blend of polyester (70%) and polyamide (30%) to ensure a completely safe drying experience.

The Joy of a Mirror Finish

There's little to say about the importance of polishing that can surpass what's visible to the naked eye.

The difference between a standard "factory finish" and the transformation a skilled detailer can achieve with the right compound, proper pads and dedicated artistry is clear — even to the most untrained observer.

A Good Foundation

Like a strong building needs a solid base and a painter requires a pristine canvas, your detailing results, whether waxing or sealing, are only as good as the surface you start with.

Taking the time to properly prepare your paintwork ensures every subsequent step shines to its fullest potential.

Our Full Range

Angelwax compounds are trusted by thousands of professionals worldwide to tackle the full gamut of polishing needs.

From heavy-cut compounds and pads that eliminate scuffs, scratches, and holograms to ultra-fine polishes that produce razor-sharp reflections, our products help you achieve a showroom-ready shine — even before a single drop of sealant, wax, or coating touches the paint.

COMPOUNDS & PADS

RESURRECTION

HEAVY CUT COMPOUND

A heavy cut, intensive surface polishing compound.

Resurrection has been formulated to remove heavy scratches, paint defects and sanding marks up to 1500 grade.
Angelwax Resurrection heavy cut compound has been designed to diminish without sticking and with very low dust formation.

Silicone free and suitable for all types of paint.

Available in 4 sizes: 250ml · 500ml · 1L · 5L

ENIGMA ALL-IN-ONE

CERAMIC INFUSED ALL-IN-ONE

An intensive surface polish that has been formulated to correct medium to heavy scratches, swirl marks, paint defects, imperfections and sanding marks up to 1500 grade.

Once the process has been completed, our unique nano-ceramic coating forms a layer of protection and a fabulous gloss over the treated area with a durability period of up to 3 months.

Angelwax Enigma AiO is suitable for all types of paint.

Available in 4 sizes: 250ml · 500ml · 1L · 5L

SANDWICH FOAM PAD

PROFESSIONAL USE

The Sandwich Foam Pads have an EVA rubber interface backing on the foam which helps the pad better endure the heat and vibration that comes with dual action polishers, especially large throw polishers.

The EVA rubber layer also helps to provide a more constant pressure on the work surface while working comfortably. Heavy scratches, holograms, water spots and many other lacquer imperfections will be effortlessly removed.

Available in six different hardnesses and 3 sizes: 3", 5", 6"

REGENERATE

MEDIUM CUT & SWIRL REMOVER

Angelwax Regenerate medium cut compound & swirl remover is an intensive medium cut compound that has been formulated to remove and correct medium to heavy scratches, swirl marks, paint defects, imperfections and sanding marks up to 2500 grade.

Angelwax Regenerate is silicone free and suitable for all types of paint.

Available in 4 sizes: 250ml · 500ml · 1L · 5L

RESURRECTION EXTREME

SUPER - HEAVY CUT

Our Super Heavy cut compound is suitable for all types of gloss vehicle paint and contains heavy diminishing micro-abrasives which are designed to remove serious paintwork defects, imperfections and sanding marks.

This unique formulation can remove heavily oxidized and intensively scratched paintwork, rapidly removing deep scratches, severe weathering, stains and paint overspray.

Works with both dual-action and rotary machines.

Available in 4 sizes: 250ml · 500ml · 1L · 5L

SLIMLINE PAD

LOW PROFILE POLYURETHANE

The slimline pad is perfect for all polishing jobs from heavy cutting to providing that final finishing lustre.

These pads come in a variety of sizes to suit all your polishing machines.

Available in 5 different hardnesses and 5 sizes: 1.5", 2", 3", 5", 6"

REDEMPTION

ULTRA FINE FINISHING POLISH

Angelwax Redemption Ultra Fine Finishing Polish has been designed to permanently remove holograms and fine scratches.

This ultra fine finishing polish will remove sanding marks to P3000 grain and will add an amazing high gloss finish.

Angelwax Redemption is silicone free and suitable for all types of paint.

Available in 4 sizes: 250ml · 500ml · 1L · 5L

PAD REVIVE+

PAD WASHING SOLUTION

During the polishing process, pads accumulate solids which can hinder their performance if they aren't regularly maintained and cleaned.

Our pad washing solution is formulated to gently restore foam, microfibre and lambswool pads, both after use and as a quick cleaning spray during use.

The active ingredients in this cleaner help dissolve dried polish and compound residues, leaving your pads free from contamination and ready to be re-used.

Available in 1L and 5L.

MICROFIBER-WOOL

HYBRID CUTTING-FINISHING

A blend of microfiber and wool, this low profile cutting pad sits between the two in terms of cutting hardness.

Microfiber-wool Hybrid pad designed for specialist that like a fast cut with a great finish.

Available in 3 sizes: 3", 5", 6"

MICROFIBER PAD

POLYURETHANE + MICROFIBER

This microfiber pad replaces the traditional foam pad contact surface with a more responsive microfiber surface.

Comes in 2 variants with firm cutting foam or soft polishing foam.

Available in 3 sizes: 3", 5", 6"

The Importance of Waxing!

Applying a layer of wax from the Angelwax detailing range is an important part of protecting vehicle paintwork and has many other benefits which are listed below:

Protection

Wax creates a protective barrier on the car's paint surface which shields the paint from various environmental elements such as UV rays, dirt, dust, road salt, bird droppings, tree sap, and other contaminants. Without this protection, these elements can cause damage to the paint over time, leading to fading, discolouration, and even rust.

Preventing Oxidation

Wax helps prevent oxidation, which occurs when oxygen reacts with the paint. Oxidation can cause paint to lose its luster and become dull or chalky. Regular waxing can slow down this process and keep your car looking new.

Water Beading & Sheeting

Wax promotes both the beading and sheeting of water, which means water will roll off the surface of the car more easily. This is not only aesthetically pleasing but also reduces the risk of water spotting and mineral deposits left behind when water evaporates.

Enhanced Appearance

Waxing can make the car look extremely glossy and it enhances the depth and clarity of the paint, making the vehicle look more appealing.

Ease of Cleaning

A waxed surface is smoother, making it more difficult for dirt and debris to adhere to the surface of the paint. When your car is waxed, it's easier to clean, and contaminants are less likely to stick, so you can maintain a cleaner vehicle with less effort.

Improved Aerodynamics

While this effect is minor, a waxed car may experience slightly improved aerodynamics because the smooth surface reduces air resistance. Over time this will result in some saved fuel money.

Resale Value

Regular waxing and proper paint maintenance can help preserve the value of your vehicle. A well-maintained exterior is more attractive to potential buyers and can fetch a higher resale price when you decide to sell or trade in your car.

Angelwax

HEAVEN SCENT WICKED FINISH

WAXES

FORMULATION #1

THE BEGINNING

Using only the highest grade naturally occurring waxes and oils planet Earth has to offer, FORMULATION #1 gives your vehicle an amazing wet look, high gloss finish with excellent durability.
FORMULATION #1 is an entry level wax which is hard in nature and only requires a thin coating to provide protection for up to 6 months. With a blend of natural waxes, oils and a lush banana fragrance this was the first wax formulation ever created at Angelwax HQ!

DARK ANGEL

DOUBLE CHOCOLATE DETAILING WAX

The ultimate wax for black and dark coloured vehicles. This specialist dyed wax has been created with our unique blend of natural oils and waxes designed to enrich dark paintwork surfaces. DARK ANGEL masks light swirls and scratches whilst providing a tough, durable wax coating that gives outstanding sheeting and beading properties and a high gloss finish. With a rich chocolate odour, DARK ANGEL hits the senses each time you apply this amazing detailing wax!

ENIGMA

CERAMIC DETAILING WAX

ENIGMA is the ultimate detailing wax! Created using only the latest nano-ceramic components, this is our most advanced wax to date.
Unlike standard waxes which are micro-porous in nature, the complex ceramic molecules used in ENIGMA fill in the micro-pores found in the surface of the wax making the surface completely smooth and much less likely to be contaminated or compromised. The result is a wax that has self-cleaning properties combined with outstanding gloss, durability and our trademark 'ease of application', comes as standard!

HALO

SYNTHETIC PASTE WAX

Designed as a completely synthetic paste sealant wax for every surface of your vehicle.
Paint, plastic, rubber trim, glass, you name it, Halo will seal it and give it the ultimate final finish. Halo will beautifully restore tired and faded external plastics and rubber trim and can even be used as a pre-wax body sealant. Used on its own, Halo will protect bodywork with superb durability well in excess of 6 months.

DRIFT

VANILLA SNOW DETAILING WAX

DRIFT is the perfecthandmade wax for white vehicles. Created with a unique blend of natural oils and waxes, this specialist titanium detailing wax has been designed to enrich white paint surfaces. DRIFT will mask light swirls and scratches while providing a tough, highly durable wax coating that offers outstanding sheeting & beading with a beautiful high gloss finish. Infused with natural vanilla fragrance oils, this pigmented wax is a must for all white car owners.

THE FIFTH ELEMENT

HIGH ENDURANCE SHOW WAX

Blended using four natural waxes, passion-fruit oil and a mysterious fifth element, The Fifth Element show wax is a brilliantly crafted detailing wax that offers both outstanding gloss depth and immense durability never before seen in a show wax. Rigorously tested both in our lab and detailing centers worldwide, The Fifth Element performs beautifully on every type of gloss paint surface.

DESIRABLE

SHOW WAX

DESIRABLE has been formulated using waxes that have been designed to offer more gloss than durability, making this the ideal show wax! With a durability of around 5 months, only a small amount is required to produce an amazing finish with excellent sheeting and beading qualities and show-stopping results.
DESIRABLE contains natural oils and waxes with a beautiful strawberry fragrance making it extremely pleasant to apply.

GUARDIAN

HIGH ENDURANCE DETAILING WAX

GUARDIAN is a high endurance detailing wax, with a huge emphasis on durability and formulated using the finest waxes available. With durability comfortably exceeding 6 months GUARDIAN has been designed to protect the bodywork of your vehicle ensuring sheeting, beading, gloss and durability are at their peak. With pharmaceutical grade waxes and the finest natural oils, this coconut fragranced wax is a dream to use!

AG METALLIC WAX

METALLIC SILVER BODY WAX

Officially the world's first hard metallic silver detailing wax made with the same components used in the manufacture of silver vehicle paint.

Designed and formulated to enrich silver paintwork, Angelwax Ag adds depth and luster whilst masking swirls, light scratches and minor stone chips, making this a must-have product for owners of silver vehicles.

There's nothing better than...

the feeling you get when you're relaxing inside a beautifully clean vehicle with dust free surfaces, spotless carpets and a pleasant aroma!

All these factors create a more enjoyable and comfortable driving experience. So, why clean the interior of your vehicle?

Health & Hygiene

A clean interior reduces dust and other particles that can affect air quality and trigger allergies or respiratory issues. Regular cleaning helps maintain a healthier environment for both you and your passengers.

Odor Elimination

Regular cleaning helps eliminate unpleasant odours caused by spills, food, pets, or other sources. A fresh-smelling interior creates a more pleasant driving experience and ensures a more inviting atmosphere.

Aesthetics

A clean interior looks visually appealing. It creates a positive impression and adds to the overall aesthetics of your vehicle. When the interior is neat and well-maintained, it can make you feel proud of your vehicle's appearance.

Preservation of Value

A clean interior contributes to preserving the value of your vehicle. Regular cleaning prevents dirt, stains, and odours from becoming deeply ingrained, which can be challenging to remove and may decrease the value of your vehicle if you decide to sell or trade it in the future.

Reduced Stress

A clutter-free and organised interior can contribute to a more peaceful driving experience. By keeping your vehicle clean, you can avoid the frustration and stress that can arise from a messy and disorganised space.
Remember, maintaining a clean vehicle interior requires regular attention and cleaning. Developing good cleaning habits and keeping up with routine maintenance can help you enjoy these positive aspects consistently.

Now all you need are the best detailing products!

Angelwax

HEAVEN SCENT WICKED FINISH

INTERIOR

ABSOLUTION

CARPET AND
UPHOLSTERY CLEANER

Angelwax ABSOLUTION SUPERIOR CARPET & UPHOLSTERY CLEANER is the perfect way to remove stubborn stains from your vehicles interior and works brilliantly on all types of carpets & fabrics. Formulated in our laboratory, ABSOLUTION contains complex surfactants that have been engineered to remove dirt, oil and other hard to move stains quickly and effectively before leaving your interior looking and smelling fabulous!

SHIELD

FABRIC PROTECTOR

Angelwax SHIELD is a state-of-the-art fabric protection system which has been formulated to safeguard fabrics both inside and outside of your vehicle. Angelwax SHIELD works as a stain repellent and is excellent on convertible hoods as well as fabric, carpets and any other material you choose to protect. Once treated with Angelwax SHIELD the surface will be protected and will repel stains effectively and ensure that the cleaning of the material is a lot easier.

BRUSH-UP!

BRISTLE BRUSH SET

The Angelwax BRUSH-UP! kit is a pure bristle brush set which is ideal for completing a multitude of detailing tasks. Inspired by Angelwax detailers all over the world, these brushes are an essential part of their detailing kit and perfect for getting access to awkward areas on the inside and outside of your vehicle.

INTERNO

INTERIOR TRIM DRESSING

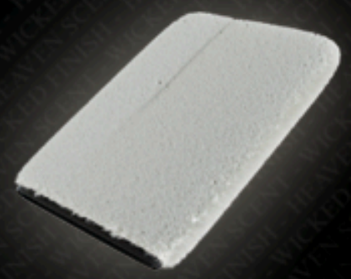

Angelwax INTERNO, is a beautifully formulated and wonderfully fresh smelling interior trim dressing that leaves plastics and vinyl with an original factory finish. Manufactured with the very finest raw materials, INTERNO has been developed using clever chemistry as anti-static properties and UV inhibitors are all part-and-parcel of this formulation. The anti-static properties prevent dust from settling on the treated surface while the UV inhibitor prevents the interior plastics and vinyl from fading in strong sunlight, very clever!

ENIGMA TRINITY

CERAMIC LEATHER COATING

Angelwax ENIGMA TRINITY Ceramic Leather Coating has been formulated to protect the leather interior of your vehicle. The ceramic component within TRINITY has been designed to ensure the leather remains soft, supple and with a natural, factory finish. Over time, the leather in your vehicle will deteriorate due to wear & tear, dye transfer and general daily usage will eventually take its toll on your interior. With a built-in UV protector, ENIGMA TRINITY repels water, static, dust, dirt and has been designed to keep the leather in superb condition with the ultimate protection.

LEATHER-MITT

LEATHER UPHOLSTERY
CLEANING MITT

The Angelwax Leather Upholstery Cleansing Mitt is the ideal way to clean and rejuvenate leather upholstery.

This large mitt with its super soft bristles cleans leather upholstery safely and efficiently removing dirt and stains caused by everyday use.

HEAVEN FOR LEATHER

pH NEUTRAL LEATHER CLEANSER

HEAVEN FOR LEATHER is a gentle, pH neutral leather cleanser and conditioner that nourishes, protects and revitalises leather upholstery.
Leather upholstery needs protection from day-to-day wear and tear, it can soon appear tired and worn if it isn't cleaned on a regular basis as marks and stains can soon detract from its appearance. With its wonderful leather odour, this naturally enriched formulation has been designed to be tough on stains and leaves leather clean and supple thus restoring the natural beauty and smell of your vehicle's interior.

HIDE-RATE

LEATHER CONDITIONER

Angelwax HIDE-RATE HUMECTANT LEATHER CONDITIONER has been designed to moisturise leather and protect its delicate surface. The drying effects of sunlight as well as general wear and tear removes moisture from the leather making it appear tired and faded. HIDE-RATE contains humectant properties which attract moisture from the atmosphere and draw it into the surface of the leather to ensure it remains soft whilst retaining its natural appearance.
HIDE-RATE has a rich leather odour and contains substances which are designed to restore & rejuvenate leather, thus leaving it looking and feeling natural, soft & supple.

FRESHENERS

THE FINAL TOUCH!

These beautifully crafted Angelwax air fresheners are available in four different fragrances. Choose from cranberry or coconut fragrances with our hanging air-fresheners. Our luxurious spray freshener EDEN is a blend of mango, watermelon and passionfruit while BLISS has woody notes with black plum to create a sumptuous, rich smelling freshener.

Wheel & tyre care...why bother!

Washing and protecting the wheels and tyres of your vehicle is an important part of regular maintenance that offers several benefits:

Appearance

Clean wheels & tyres enhance the overall look of your vehicle. Dirty, brake dust-covered wheels and marked tyres can make your car look neglected and older than it is. A clean set of wheels and tyres will give your vehicle a polished and well-maintained appearance.

Preservation

Brake dust, road grime, and other contaminants can corrode and damage your wheels over time. Regular maintenance with Bilberry Wheel Cleaner will help prevent this damage, preserving the appearance and structural integrity of your wheels.

Safety

Clean wheels can improve safety. Brake dust buildup can affect your brakes' performance by reducing their ability to dissipate heat. This can lead to reduced braking effectiveness and potentially dangerous situations.

Longevity

Protecting your wheels and tyres with the recommended Angelwax tyre dressings, ceramic and wax products can help extend their lifespan. These products create a barrier that shields both the wheels and tyres from harsh environmental elements, such as salt, dirt, and UV rays, which can lead to corrosion and deterioration.

Resale Value

Well-maintained wheels can contribute to a higher resale value for your vehicle. When it comes time to sell or trade in your car, potential buyers are more likely to be attracted to a vehicle with clean, well-kept wheels.

Easier Cleaning

Regularly washing and protecting your wheels & tyres will make future cleaning much easier. The buildup of brake dust and grime is less likely to adhere to the wheel's surface if you've been diligent about maintenance.

Enhanced Driving Experience

Clean wheels can also contribute to a smoother and more enjoyable driving experience. When your wheels are free from buildup, they can function optimally, providing better handling and a quieter ride.

HEAVEN SCENT WICKED FINISH

WHEEL & TYRE CARE

REVELATION
FALLOUT REMOVER

Angelwax Revelation is the complete solution for removing harmful ferrous metals from wheels and bodywork, which, if left untreated can penetrate the surface of the paint and create corrosive compounds that can eat through the vehicles paintwork.
The high-temperature iron found in brake dust can be very stubborn to remove from both the wheels and bodywork. Angelwax Revelation visually identifies concentrations of these harmful iron particles on the vehicle surface by highlighting the areas visually as the product turns from clear to a deep purple when it reacts with the contaminating ferrous particles.

This coloration is Revelation forming a bond to the sintered iron on the vehicle surface, indicating that it is now water soluble and ready for easy removal. Stubborn grime may take a small amount of agitation.

ENIGMA LEGACY
WHEEL AND CALIPER COATING

Formulated for ease of use, Enigma Legacy Wheel & Caliper is a consumer grade wheel and caliper coating designed specifically for alloy wheels and brake calipers which can be applied by the professional and enthusiast detailer alike within minutes.

Legacy Wheel & Caliper is a long lasting coating which protects from harmful brake fallout and road contamination with a superb lasting gloss, making cleaning effortless and satisfying.

ELIXIR
TYRE DRESSING

Angelwax Elixir has been formulated to rejuvenate the rubber, vinyl and plastic components of your vehicle.

Elixir is a curable, water based formulation developed to adhere to rubber, vinyl and plastic. Elixir creates a waterproof barrier and leaves the treated surface like new with a factory finish.

BILBERRY (RTU & CONCENTRATE)
SAFE WHEEL CLEANER

Angelwax Bilberry is a powerful, pleasantly scented, non-acidic, ready-to-use wheel cleaner.

Designed and formulated for use on alloy wheels and wheel trims, our superior wheel cleaner is extremely aggressive at removing brake dust and contaminants without harming the allow wheels or any sensitive plastics such as trims or center-caps.

BILBERRY WHEEL WAX
PROTECTIVE SEALANT

Designed to work in conjunction with our original formula Bilberry wheel cleaner, Bilberry is our award winning wheel sealant wax. Formulated to protect your wheels for up to 6 months by creating a barrier on the surface of your wheel, Bilberry wheel wax prevents the fusing of brake dust and traffic film, making cleaning your wheels much easier!

ENIGMA ELIXIR
CERAMIC TYRE DRESSING

Angelwax Enigma Elixir is a ceramic tyre dressing which has been formulated using the latest ceramic technology to be highly durable and waterproof.

This air cured ceramic formula has outstanding durability that will last for weeks rather than days and has been designed to repel dirt and water from the sidewall of the tyres so that they maintain a freshly detailed, factory appearance.

Unlike some tyre dressings, Enigma Elixir will not make your wheels dirty or "sling" onto your bodywork.

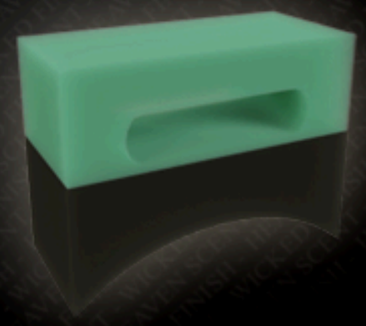

WHEEL WOOLIES
SOFT WHEEL BRUSHES

The original and best! Manufactured in the US especially for Angelwax, this selection of brushes will ensure that you reach every part of your wheel.

BRUSH-UP!
BRISTLE BRUSH SET

The Angelwax BRUSH-UP! kit is a pure bristle brush set which is ideal for completing a multitude of detailing tasks. Inspired by Angelwax detailers all over the world, these brushes are an essential part of their detailing kit and perfect for cleaning your wheels and tyres!

TYRE DRESSING APPLICATOR

A must for any detailer ensuring an even distribution of product across the profile of the tyre. Made from high quality foam this applicator can easily be washed and reused again and again.

CERAMIC COATING GUIDE

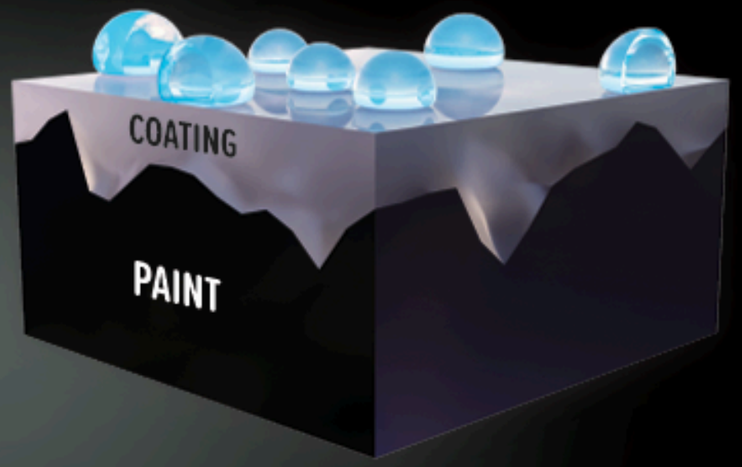

THE SCIENCE

OF CERAMIC COATINGS

A ceramic coating fills in microscopic irregularities in the topmost layer of your vehicles paint and in turn
it restores the gloss and the depth of colour.

This tough ceramic layer then acts as a protective top-coat for your paint with
hydrophobic properties, which means rain will not stick to it and is far less likely to deposit dissolved dirt.

Once the coating has been applied the water behaviour on the surface of the paintwork will change, you will be able to see this in the form of visible water beading.

PROTECTION FROM

- Acids and Alkali
- Micro Scratches
- UV Fade
- Water Spotting
- Atmospheric dust dissoled in rain
- Oxidisation

EXTRA BENEFITS

- Restores Color Depth
- Swirl Resistance
- Unrivalled Levels of Gloss
- Extreme Surface Slickness
- Easily Maintained

COATINGS

PROFESSIONAL GRADE

These are our professional grade coatings. They*can ONLY be applied by official **Angelwax** Accredited Detailers who have completed our bespoke coating training program*. This ensures that you, the customer, get exactly what you pay for.

GENESIS
CERAMIC COATING
5 YEAR GUARANTEE

Angelwax ENIGMA GENESIS is a state-of-the-art ceramic coating designed for professional use only. **ENIGMA GENESIS** is a 'one-coat' application which offers outstanding gloss, superb durability, swirl resistance and makes the vehicle much easier to maintain as dirt and grime are easily removed during the wash process.

The **ENIGMA GENESIS** coating carries a 5 years warranty for complete peace of mind.

INSPECTION INTERVAL: 12 MONTHS

SOLARIS
CERAMIC COATING
3 YEAR GUARANTEE

Perfect for those of you that keep their vehicle for just a short time. Once applied, **Angelwax SOLARIS** offers outstanding gloss and excellent durability which makes the vehicle much easier to maintain as dirt and grime are easily removed during the wash process.
The **ENIGMA SOLARIS** coating is warranted for 3 years.

INSPECTION INTERVAL: 12 MONTHS

LEGACY WHEEL & CALIPER
TITANIUM CERAMIC COATING
PROTECTION FOR UP TO 25,000 MILES**

Angelwax ENIGMA LEGACY WHEEL & CALIPER is a titanium ceramic coating designed specifically for alloy wheels and brake calipers.

Once applied, ENIGMA LEGACY WHEEL & CALIPER will protect the surface from harmful fallout and contamination thus making cleaning and maintenance much easier.

*with the exception of the legacy range, which anyone can apply (at your own risk)
**25,000 mile warranty only applies if the product has been installed by an Angelwax Accredited Detailing Centre

DARK STAR NEBULA
GRAPHENE CERAMIC COATING
5 YEAR GUARANTEE

The most technologically advanced graphene coating in the industry, Angelwax NEBULA has a unique 'one-coat' application process which leaves the ultimate 'wet-look' gloss finish that is very slick to the touch and leaves a super hard shell on the surface of the paint. The graphene within the coating works as a gloss boost and ensures the paint surface remains ultra-slick to the touch. This tough coating reduces the risk of paint swirls which occur during the wash process and it's hydrophobic properties reduce the potential for water-spotting. Water-spotting occurs when minerals and dirt dissolved in water dry out and appear as transparent spots on the surface of the top-coat.
The slickness and hydrophobicity combine into a self-cleaning ability resulting in easier mainte nance as your vehicle
will remain cleaner for longer.
Angelwax NEBULA is installed with a 5 year warranty.

INSPECTION INTERVAL:
12 MONTHS
