Chemical Guys

Chemical Guys is a world leader in the detailing and car care industry, specializing in the highest quality car care chemicals, car wash accessories, buffing pads, and machines.

OUR PASSION FOR SHINE

What drives us is a passion for shine.
Speed is aerodynamic elegance at its finest; the brilliant artistry of curved metal sheets welded together and fueled by horsepower, freshly dipped chrome, curved crystal-clear glass, the smell of new hand-stitched leather, and the sparkle of a freshly waxed auto is what fuels us. It drives us to innovate, invent, and teach, because to us, success is to build not a company, but a worldwide family whose sum is greater than all of its parts.

From exclusive small-batch waxes to cutting edge hybrid coatings, nano-polishes, and ceramic sealants, we do more than innovate in the industry, we redefine it. At Chemical Guys, we don't just manufacture the highest quality chemicals here in California, we specialize in manufacturing unique solutions in a never-changing industry.
